WIP - Work in Progress

#### Chief Executive Officer's Responsibility and Approval

The audited annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

I am responsible for the preparation of the annual financial statements, set out on pages 8 to 45, in terms of the Company's Act No. 71 of 2008 as amended and section 126 (2) of the Municipal Finance Management Act of 2003, which I have signed on behalf of iLembe Management Development Enterprise (Pty) Ltd.

all and a second se	29/12/2021	
Linda Mncube Chief Executive Officer	Date	

**Directors' Responsibilities and Approval** 

The Directors are required by the Municipal Finance Management Act (Act No. 56 of 2003) and the Companies Act (Act No. 71 of 2008 as amended) to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related information. The auditors are responsible to report on the fair presentation of these statements. The financial statements have been prepared in accordance with the prescribed Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The Directors are also responsible for the company's systems of internal financial control. These are developed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements and to adequately verify and maintain accountability of assets, and not absolute, assurance as to the reliability of the financial statements and to adequately verify and maintain accountability of assets, and to prevent and detect misstatement and loss. Nothing has come to the attention of Directors to indicate that any material breakdown in the functioning of these controls, procedures and systems occurred during the year under review.

The annual financial statements have been prepared on the going concern basis. The Board of Directors has adopted this basis of accounting after having made enquiries of management and given due consideration to information presented to the Board, including budgets and cash flow projections for the year ahead and key assumptions and accounting policies relating thereto. Accordingly, the Directors have no reason to believe that the municipal entity will not continue as a going concern in the year ahead.

To enable the Directors to meet these responsibilities, the Directors set standards of internal controls aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities with a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the entity.

All employees are required to maintain the highest ethical and integrity standards in ensuring that the municipal entity's business practices are concluded in a manner, which in all reasonable circumstances, is above reproach. The concept of reasonable assurance recognises that the control procedures should not exceed the expected benefits. The municipal entity maintains its internal control system through management review. Nothing has come to the attention of the Directors to indicate any breakdown in the functions of these internal controls during the year, which resulted in any material loss to the municipal entity.

#### **Directors' Report**

The following report is submitted in terms of section 30(3) of the Companies Act, 2008, for the period ended 30 June 2021.

#### **General Review**

The Municipal Entity was incorporated on 27 October 2008 and replaced the Ilembe Development Foundation which was incorporated on 8 November 2002 and commenced business operations on 1 July 2006. The change was necessary to comply with Section 93 of the Municipal Systems Act. Subject to this there has been no material change in the nature or conduct of the Municipal Entity's business during the period under review. The financial statements adequately disclose the results of the operations for the period under review and the state of the Municipal Entity's affairs for the period ended 30 June 2021.

#### 1. Nature of Business

The Municipal Entity has been formed as a local economic development agency of the Ilembe District Municipality to promote economic growth. The Municipal Entity was formed in terms of the Municipal Systems Act No. 32 of 2000 and the Municipal Finance Management Act No. 56 of 2003

#### 2. Going Concern

The Annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. The basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. The Entity is also currently able to meet its obligations as the assets exceed liabilities, with the cost coverage sitting at 2,25:1 and the current ratio at 1,34:1. The number of days cash on hand is 67 days (norm is 30 days).

#### 3. Material Agreement

None at this stage.

#### 4. Financial results of the company

The audited annual financial statements on pages 8-45 set out fully the financial position and results of operations and cash flows of the Entity for the period ended 30 June 2021.

#### 5. Subsequent Events

The Directors are not aware of any matter or circumstance arising since the end of the financial period under review that would impact on the fair presentation of the financial statements presented.

#### 6. Share Capital

Issued share capital is 100 shares at the value of R1.00 each.

#### 7. Dividends

No dividends have been proposed or declared during the year under review, nor are any recommended.

#### 8. Directors

The Directors of the Entity during the year and to date of this report are as follows:

Name	Details
KS Shandu - Board Chairperson	Term ended December 2020
AT Nzama - Deputy Board Chairperson & Tourism and In	n Term ended December 2020
DN Nene - HR & Finance Sub-Committee Chair	Term ended December 2020
JJC Oelofse	Term ended December 2020
ZS Gumede	Term ended December 2020
N Mngadi	Term ended December 2020
B Mngadi	Term ended December 2020
Mr X Gumede - Board Chairperson	Appointed January 2021
Ms N Mlaba - Board Deputy Chairperson	Appointed January 2021
Ms N Dlamini	Appointed January 2021
Dr T Mbonambi	Appointed January 2021
Mr I Deetlefs	Appointed January 2021
Mr R Ridwaan	Resigned May 2021

Fees for a retainer and attendance at meetings totalling R755 186 (R765 519 in June 2020) were paid during the period under review. See note 19 of the Annual Financial Statements.

#### 9. Economic Entity

As an Entity of the iLembe District Municipality, the following are applicable in terms of reporting structures:

- The Municipal Manager of iLembe District Municipality Mr G Kumalo
- The Chairperson of the Economic Development Portfolio Committee the Deputy Mayor of iLembe, Cllr D Shandu

#### 10. Directors' interest in contracts

The Directors have declared interest in companies they are part of, but none that are linked to the Entity.

#### 11. Corporate Governance

#### 11.1 Board Meetings

The Board has two sub-committees - LED and Investment and the HR, Finance and Remuneration sub-committees. The Board is required to meet at least 4 times per annum. The schedule below indicates the meetings held during the 2020/2021 financial year and attendance thereof of both the previous Board and the newly approved Board as outlined under no. 8 above.

Name	Board	LED and Investment	HR, Finance & Remuneration

Cash/cash equivalents at the beginning of the year	520 348	520 348	16 091 893	520 348	15,571,546	2993%	When budgeting, the aim to spend on the entire budget
Cash/cash equivalents as at 30 June 2021	5 110 492	5 110 492	13 474 495	5 110 492	9,521,069		

The budget is approved on an accrual basis by nature classification. The approved budgets cover the period 1 July 2020 to 30 June 2021.

The budget and accounting bases are the same as both are on the accrual basis. The financial statements are prepared using a classification on the nature of expenses in the statement of financial performance.

# ILEMBE MANAGEMENT DEVELOPMENT ENTERPRISE (PTY) LTD SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AUDITED ANNUAL FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2021

#### 1 BASIS OF PREPARATION

#### 1.1 STATEMENT OF COMPLIANCE

These annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant policy.

#### 1.2 BASIS OF MEASUREMENT

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with the historical cost convention as the basis measurement, unless specified otherwise.

#### 1.3 FUNCTIONAL AND PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipal entity. All financial information has been rounded to the nearest Rand.

#### 1.4 OFFSETTING

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the municipal entity has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Revenue and expenses have not been offset except when offsetting is required or permitted by a standard of GRAP.

#### 1.5 GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on the assumption that the municipal entity will continue to operate as a going concern for at least the next 12 months. COVID-19 is not expected to have a significant impact on the Entity. Management has determined that there is no material uncertainty that casts doubt on the Entity's ability to continue as a going concern. It is expected that COVID-19 might have some impact, though not significant, for example, in relation to expected future performance, or the effects on some future asset valuations. The Entity is also currently able to meet its obligations as the assets exceed liabilities, with the cost coverage sitting at 2,25:1 and the current ratio at 1,34:1. The number of days cash on hand is 67 days (norm is 30 days).

#### 1.6 USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with GRAP requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future.

#### 1.7 COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

#### 1.8 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED AND EFFECTIVE

The following GRAP standards have been issued and are effective and have been adopted by the municipal entity.

GRAP 20 Related Party Disclosure - effective 01 April 2019

GRAP 32 Service Concession Arrangements: Grantor: None - effective 01 April 2019

GRAP 108 Statutory Receivables - effective 01 April 2019

GRAP 109 Accounting by Principals and Agents - effective 01 April 2019

IGRAP 17 Interpretation of the Standard of GRAP on Service Concession Arrangements where a Grantor controls a significant residual interest in an assets - effective 01 April 2019

IGRAP 18 on Recognition and Deregnition of Land - effective 01 April 2019

Directive 12 on the selection of an appropriate reporting framework by public entities - effective 01 April 2018

IGRAP 19 Liabilities to pay levies - effective 01 April 2019

GRAP 18 on Segment Reporting - already effective

GRAP 34 on Separate Financial Statements - effective 01 April 2020

GRAP 35 on Consolidated Financial Statements - effective 01 April 2020

GRAP 36 on Investments in Associates and Joint Ventures - effective 01 April 2020

GRAP 37 on Joint Arrangements - effective 01 April 2020

GRAP 38 on Disclosure of Interests in Other Entities - effective 01 April 2020

GRAP 110 on Living and Non-Living Resources - effective 01 April 2020

IGRAP 20 on Adjustments to Revenue (and related amendments to IGRAP 1) - newly effective

The impact of the application of these standards on the municipal entity's annual financial statements is as follows:

There is no expected impact on the following standards at this stage:

- GRAP 32, IGRAP 17, IGRAP 18, Directive 12, IGRAP 19, GRAP 34, GRAP 35, GRAP 36, GRAP 37. GRAP 38, GRAP 110 GRAP 20 - Already used as a guideline for accounting policies

**GRAP 108** - No changes expected to recognition and measurement, but additional disclosures and separate classification in the notes will be done on adoption where applicable.

**GRAP 109** - No changes expected to recognition and measurement, but additional disclosures in the notes will be done on adoption where applicable.

GRAP 18 - There is no expected impact however, this may change in the future

IGRAP 20 - The related amendments have been noted and will be implemented accordingly.

#### 2 SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies had been applied consistently during the current and previous reporting as set out in the note 1.2.

#### 2.1 PROPERTY. PLANT AND EQUIPMENT

#### 2.1.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipal entity. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipal entity for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipal entity expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

#### 2.1.2 SUBEQUENT MEASUREMENT - COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipal entity replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

#### 2.1.3 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets.

Furniture and equipment

Manufacturing Plant

Computer equipment

Municipal Buildings

Motor Vehicles (Leases)

7-10 years
5-10 years
5 years
3 years

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipal entity tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

#### 2.1.4 DERECOGNITION

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

#### 2.1.5 LEASED ASSETS

Leases in terms of which the municipal entity assumes substantially all the risks and rewards of ownership are classified as finance leases. Other leases are classified as operating leases. Upon initial recognition of assets leased under finance leases, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

#### 3 BIOLOGICAL ASSETS

#### 3.1 INITIAL RECOGNITION AND MEASUREMENT

Biological assets are fair valued at the end of each accounting period. Biological assets that have not produced crops are valued at cost while in the case where crops are present the value of the crop at the end of the accounting period is taken into account to arrive at the fair value. Subsequent to initial recognition, biological assets are measured at fair value less estimated cost to sell.

#### 3.2 FAIR VALUE ADJUSTMENTS

An independent expert valuer will evaluate the assets to get the fair value at the end of the financial year. The report from the valuer is then used to adjust the fixed asset register. The gains or losses are recognized in accumulated surplus or deficit.

#### 4 INVENTORIES

#### 4.1 INITIAL RECOGNITION

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, excluding taxes, transport costs and any other costs in bringing inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

#### **4.2 SUBSEQUENT MEASUREMENT**

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

The basis of allocating cost to inventory items is the first in first out method.

#### **5 FINANCIAL INSTRUMENTS**

#### 5.1 INITIAL RECOGNITION

Financial instruments are initially recognised at fair value. The entity recognises a financial asset or a financial liability in its Statement of Financial Position when, and only when the entity becomes a party to the contractual provisions of this instrument.

#### **5.2 SUBSEQUENT MEASUREMENT**

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to maturity, loans and receivables, or available for sale. Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities are measured either at fair value or amortised cost or cost.

#### 5.2.1 TRADE AND OTHER RECEIVABLES

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

#### 5.2.2 TRADE PAYABLES AND BORROWINGS

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest.

#### 5.2.3 CASH AND CASH EQUIVALENTS

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipal entity categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

#### **6 UNAUTHORISED EXPENDITURE**

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority, it is treated as a receivable, if it meets the definition and the recognition criteria of an asset, in the statement of financial position until it is recovered or written off as irrecoverable.

#### 7 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipal Entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority, it is treated as a receivable, if it meets the definition and the recognition criteria of an asset, in the statement of financial position until it is recovered or written off as irrecoverable.

#### 8 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority, it is treated as a receivable, if it meets the definition and the recognition criteria of an asset, in the statement of financial position until it is recovered or written off as irrecoverable.

#### 9 LEASES

#### **MUNICIPAL ENTITY AS LESSOR**

Under a finance lease, the municipal entity recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipal entity, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

#### 10 REVENUE

#### 10.1 REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrued to the municipal entity directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

#### Recognition

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods is passed to the consumer.

Revenue arising out of situations where the municipal entity acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

#### Measurement

Monetary arising out of a contractual agreement, such as cash and receivables are initially measured at fair value on acquisition date.

#### 10.2 REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from non-exchange transactions refers to transactions where the municipal entity received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the municipal entity. Where public contributions have been received but the municipal entity has not met the related conditions, a deferred income (liability) is recognised.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipal entity.

#### 11 VALUE ADDED TAX (VAT)

The municipal entity accounts for VAT on the cash basis. The municipal entity is liable to account for VAT at the standard rate 15% (14% until 31 March 2018) in terms of section 7 (1) (a) of the VAT Act in respect of the supply of goods or services, except where the supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the VAT Act or is out of scope for VAT purposes. The municipal entity accounts for VAT on a bi-monthly basis.

#### 12 INCOME TAX

The municipal entity is registered for income tax purposes and is liable for income tax at the corporate rate of 28%. Income tax returns are up to date as at 30 June 2021. Current year tax return will be submitted by due date.

#### 13 RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control; or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. The parent municipality as the Shareholder of the entity holding 100% shares is disclosed on the related parties note to the financial statements because of the nature of the transactions. Amounts are disclosed accordingly.

#### 14 EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the annual financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the annual financial statements.

#### 15 CAPITAL COMMITMENTS AND CONTINGENCIES

Items are classified as commitments where the municipal entity commits itself to future transactions that will normally result in the outflow of resources. Capital commitments and contingencies are not recognised in the statement of financial position as a liability but ar included in the disclosure notes of the annual financial statements where applicable.

#### 16 IMPAIRMENT OF ASSETS

#### 16.1 Recognition

The municipal entity assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipal entity estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipal entity also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.

#### 16.2 Measurement

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

#### 16.3 Reversal of Impairment

The municipal entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

#### 17 EMPLOYEE BENEFITS

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past service or performance and the obligation can be estimated reliably.

Liabilities for short-term employee benefits that are unpaid at year-end are measured at the undiscounted amount that the entity expects to pay in exchange for that service and had accumulated at the reporting date. This includes long service awards and leave provision.

#### **18 STATUTORY RECEIVABLES**

#### 18.1 INITIAL RECOGNITION

Statutory receivables are measured initially at their transaction amount, using the prescripts of legislation, regulations or an equivalent. The transaction amount is adjusted in subsequent reporting periods to accrue for any interest or other charges that an entity levies (if required or permitted to do so in legislation or similar means) and, to account for any impairment losses or any amounts derecognised, for example, the settlement of amounts owing by a debtor.

#### **18.2 SUBSEQUENT MEASUREMENT**

An entity shall measure statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:

- (a) interest or other charges that may have accrued on the receivable (where applicable);
- (b) impairment losses; and
- (c) amounts derecognised

#### 19 SHARE CAPITAL

Share capital represents the nominal value of shares that have been issued. iLembe District Municipality holds 100% shares valued at R100.

Retained profit includes all current and prior period retained profits.

#### 20 BUDGETING PRINCIPLES

The original and approved budget is the initial approved budget for the budget period. It means the expenditure authority derived from laws, appropriation bills, government ordinances and other decisions related to the anticipated revenue or receipts for the budgetary period. The budget, if necessary, may be adjusted in line withe section 87 (6) of the MFMA.

The budget shall be financed from the following sources of financing:

- (i) Grants and subsidies shall be based on grants and subsidies allocated by iLembe District Municipality and any other donor organisations plus all other subsidies received by Entity.
- (ii) The budget for return on investment shall be in accordance with Investment policy of the Entity.
- (iii) All other income items will be budgeted for based on the actual income received in the preceding year and the percentage growth as determined by the Chief Financial Officer for a particular budget year.

National Treasury issues circulars and guidelines before every financial year budgeting process commences which are followed together with the MFMA in producing final budgets.

#### 21 PROVISIONS

A provision is a liability of uncertain timing or amount. The liability may be a legal obligation or a constructive obligation. A constructive obligation arises from the entity's actions, through which it has indicated to others that it will accept certain responsibilities, and as a result has created an expectation that it will discharge those responsibilities. Examples of provisions may include: warranty obligations; legal or constructive obligations to clean up contaminated land or restore facilities; and obligations caused by a retailer's policy to make refunds to customers.

An entity recognises a provision if it is probable that an outflow of cash or other economic resources will be required to settle the provision. A provision is measured at the amount that the entity would rationally pay to settle the obligation at the end of the reporting period or to transfer it to a third party at that time. The Entity has made provisions where applicable.

#### 22 SEGMENT REPORTING

#### 22.1 INITIAL RECOGNITION

A segment is an activity of an entity:

that generates economic benefits or service potential (including economic benefits or service potential relating to transactions between activities of the same entity);

Whose results are regularly reviewed by management to make decisions about resources to be allocated to that activity and in assessing its performance; and

for which separate financial information is available.

Reportable segments are the actual segments which are reported on in the segment report. They are the segments identified above or alternatively an aggregation of two or more of those segments where the aggregation criteria are met.

#### 22.2 MEASUREMENT

The amount of each segment item reported is the measure reported to management for the purposes of making decisions about allocating resources to the segment and assessing its performance. Adjustments and eliminations made in preparing the entity's financial statements and allocations of revenues and expenses are included in determining reported segment surplus or deficit only if they are included in the measure of the segment's surplus or deficit that is used by management. Similarly, only those assets and liabilities that are included in the measures of the segment's assets and segment's liabilities that are used by management are reported for that segment. If amounts are allocated to reported segment surplus or deficit, assets or liabilities,

#### 22.3 IDENTIFICATION OF SEGMENTS

The entity is organised and reports to management on the basis of major functional areas. The segments were organised around the type of service delivered and the target market. Management uses these same segments for determining strategic objectives. Segments were aggregated for reporting purposes.

Information reported about these segments is used by management as a basis for evaluating the segments' performances and for making decisions about the allocation of resources. The disclosure of information about these segments is also considered appropriate for external reporting purposes.

#### 22.4 AGGREGATE SEGMENTS

The entity operates within it municipal jurisdiction, as per the boundaries and demarcation. Segments were aggregated on the basis of services delivered as management considered that the economic characteristics of the segments throughout were sufficiently similar to warrant aggregation.

#### 22.5 TYPES OF GOODS AND/OR SERVICES BY SEGMENT

These reportable segments as well as the goods and/or services for each segment are set out below:

Reportable Segments

Goods and/or services

Other Unallocated Provision for tourism, agriculture and other services Provision for finance and other support services

Closing Balance	759 000	559 000
Total Employee Benefits	2 403 055	2 628 985

The leave provision is calculated based on the number of leave days for each employee at the end of the reporting period. This is based on the salary cost per day based on the number of working days and monthly salary. 75% of the leave provision is cash backed as per the approved reserves policy.

Long service awards are disclosed as per the Actuarial valuation report produced by valuers at the end of the reporting period. These are tested against the Entity data of employees at the end of the reporting period.

Cost	1 710 000	1 710 000
Accumulated amortisation	( 1 710 000)	( 1 710 000)

Due to the project (planting and producing wine) proving not to be viable, the Entity wrote to COGTA (funder) requesting that the vineyards be repurposed to open fields as a more viable option. As a result, the biological assets (vines) were approved for write-off by Board during the 2020/2021 financial year.

32 OPERATING LEASES		
The future minimum lease payments payable under operating leases for the	actual liability are as follows:	
No later than 1 year	1 816 015	869 913
Later than 1 year and no later than 5 years	302 500	1 782 380

The entity entered into a lease agreement for machinery (contract for 5 printing machines) which is for the period 01 April 2019 to 31 March 2022. The Entity also leases tunnels to Farley Farmes (1 November 2017 - 31 October 2020) and Decaju (1 December 2019 - 30 November 2022)

2 118 515

2 652 293

The effect of straighlining on the operational leases has resulted in the liabilities as follows

Non-current assets	52 188	22 238
	52 188	22 238
Non-current liabilities		-
Current liabilities	2 728	-
	2 728	-

#### 33 GOING CONCERN

I he unaudited annual financial statements for the period ended 30 June 2021 have been prepared on a going concern basis. COVID-19 is not expected to have a significant impact on the Entity. Management has determined that there is no material uncertainty that casts doubt on the Entity's ability to continue as a going concern. It is expected that COVID-19 might have some impact, though not significant, for example, in relation to expected future performance, or the effects on some future asset valuations. The agency does not forsee anything that will hinder it operating in the future.

#### 34 RISK MANAGEMENT OF FINANCIAL ASSETS AND LIABILITIES

#### 34.1 Interest Rate Analysis

The risk that the entity will not receive the maximum interest benefits from investments.

#### **Financial Assets:**

External Investments:		
Current Investments	11 021 568	10 117 150
Bank balances and cash	2 452 927	5 974 743
	13 474 495	16 091 893
Interest earned bank external investments	437 760	552 006
Interest rate	3.2%	3.4%

	2021	2020 Restated
	R	R
Outstanding Debtors:		
Other debtors	3 444 112	10 588 975
	3 444 112	10 588 975
Interest earned on outstanding debtors		
Interest rate	0.0%	0.0%

#### 34.2 Credit Risk

Credit risk consists mainly of cash deposits, cash equivalents and trade debtors. The Entity only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party

Financial assets exposed to credit risk at year end were as follows:

Receivables Cash and cash equivalents	11 12	3 444 112 13 474 495	10 588 975 16 091 893
Ageing of consumer debtors:			
Current		196 270	1 873 874
31-60 days		818 371	8 053 034
>60 days		4 562 684	662 067
Net Consumer Debtors		5 577 325	10 588 975

#### 34.3 Liquidity Risk

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments.

The table below analyses the entity's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

Less than One Year		
Finance lease liability	386 739	1 145 926
Trade Payables	799 136	3 403 751
	1 185 875	4 549 677
Between Two to Five Years		
Finance lease liability	-	302 983

#### 37 REPORTABLE SEGMENTS

For management purposes, the entity is organised and operates in four functional segments (or business units). To this end, management monitors the operating results of these business units for the purpose of making decisions about resource allocations and assessment of performance. Revenues and expenditures relating to these business units are allocated at a transactional level. Costs relating to the governance and administration of the entity are not allocated to these business units.

The four business units comprise of:

- · Local economic development which includes agriculture and farmer support as well as development of SMMEs;
- Tourism and Investment Promotion services which includes marketing, communication, events, research and exhibitions as well
- HR and Administration which also incoprorates ICT and legal related activities;
- · Financial management related activities;

The grouping of these segments is consistent with the functional classification of government activities which considers the nature of the services, the beneficiaries of such services and the fees charged for the services rendered (if any).

Management does monitor service provider performance by means of quarterly performance assessment rated by project managers within business units. Performance management is also monitored through the service delivery and budget implementation plan detailing targets and progress against those.

#### 39 CONTINGENT ASSET

Phambili Energy 5,000,000

During the 2020/2021 financial year, the Entity engaged legal services to review the agreement currently in place between the Entity and Phambili Energy, who is the Technical Partner in the roll-out of the Biomass Project - a project funded by COGTA. This was prompted by a dispute that is happening between the parties. Phambili Energy proposed a settlement wherein Phambili Energy would pay back the Entity R5 million as its capital contribution to the project initiation, plus other costs, and in turn the Entity would exit from the project. The Entity has not accepted this offer as it is not based on any financial benefit assessment, in turn requested that Phambili Energy provides its audited financial statements so that the proposal made could be assessed on the factual basis and that the Entity does not end up losing.

This is anticipated to be resolved during the 2021/2022 financial year.

#### 40 SERVICES IN KIND

#### Right of use of Raset Fleet Agreement

The Entity currently has a support agreement in place that was signed between the Entity and iThala for the RASET Programme. This contract was to allcate to the Entity the use of 3 truck and 2 bakkies which was also going to assst with the implementation of the National Schools Nutrition Programme (NSNP) - of which the contract terminated on 30 June 2020. These trucks were not used during the 2020/2021 financial year.

The contract terminates on 31 March 2022.
